Subject: 4-15-19 PM Observations

Note: TNT de-inventory crew has been released and will demobilize from ITC.

Fire & Tank Farm Positive:

- Degassing ops continue in tanks 7, 10, 13 and 14
- Beginning to relocate equipment off of Independence Pkwy and Tidal Rd to ITC property to clear up the roads.

Fire & Tank Farm Negative:

- LEL, VOC and Benzene emissions from tank farm.
- Fire protection/safety personnel need to be in a state of readiness while operations are performed inside and adjacent to the secondary containment.
- **Although most flammable liquid levels in tanks are down or in a heel situation, work should not be considered normal operating conditions in the tank farm. There are still possibilities of flash fire while personnel are working inside the tank farm or adjacent to.**

Environmental Positive:

- Tidal Rd Ditch and Tucker Bayou at Tidal Rd improving. Film/sheen likely coming from impacted vegetation.
- Flushing ops from behind Clean Harbors to Tidal Rd bridge.
- Crew washing ditch behind Clean Harbors.
- Crews beginning to clear pathways down Tucker Bayou beginning at bridge on Tidal Rd.

Environmental Negative:

- Remove / replace spent absorbent boom.
- Various locations in Tucker Bayou have blockage from vegetation. This blockage needs to be removed to have a successful flush. Appear to be working that direction now.
